

# Fishing and Boating Below

## Rocky Reach

The area below Rocky Reach Dam is a favorite area for fishing and boating. We want anglers to continue to safely enjoy the area for many years to come. Public safety and security of the dam require that areas within 400 feet of the dam be off limits to boats and those fishing from the river bank.

State law\* makes it unlawful to fish within 400 feet downstream of man-made dams, which includes Rocky Reach.

\*WAC 232-12-164

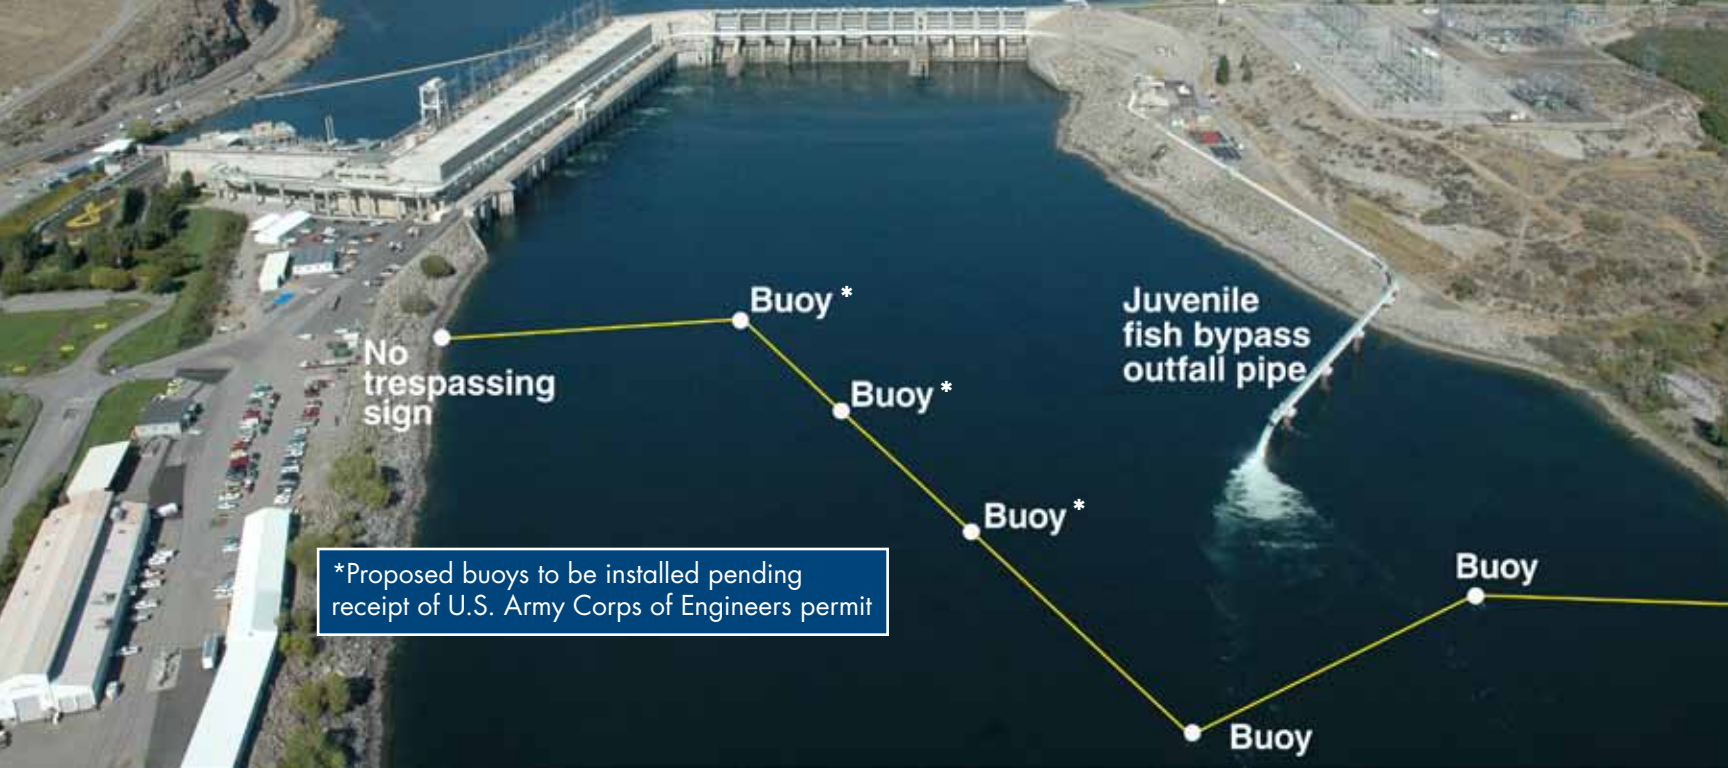

The map on the reverse side of this card shows the areas below the dam that are safely available to those enjoying the river. Use your smart phone to scan the QR code for a digital copy of the map. Or go to [www.chelanpud.org](http://www.chelanpud.org) to print the map.
